Found Monument(s) and Accessories (condition & source): Found 3" Tillamook County Brass Cap stamped as shown hereon; in tile and concrete. When the original monument was set could not be determined or what the original monument was; but previous surveys from the 1940's to 1970 show the monument to be a 2" iron pipe. In 1965 three new accessories were established. In 1965 John Carlich set a 1 1/4" iron bar with a 3" Tillamook County Brass Cap stamped as shown hereon and added one new accessory. In 2018 the monument was found in good condition but in need of new accessories, because the previous accessories which were highway right of way pins were too far away to be used as adequate references to the monument.
