PUBLIC COMMENT

The board will allow public comment at board meetings during a public comment period. Those intending to provide public comment for the board may email submissions to publiccomments@co.tillamook.or.us. Public comments received by 5:00 p.m. on Tuesday will be distributed to the board and become part of the public record.

Public comments submitted via email after the deadline or during the workshop or board meeting will be presented by staff to the board during the public comment period. Unless otherwise specified, these submissions will be presented during the board meeting. Public comments can also be mailed to the Board of Commissioners' Office, 201 Laurel Avenue, Tillamook, Oregon, 97141.

Two minutes is allowed per comment. The chair may, at his/her sole discretion, further limit or expand the amount of time for individuals to speak.

JOIN THE BOARD OF COMMISSIONERS MEETINGS

The Board is committed to community engagement. Due to Oregon COVID-19 restrictions for public gatherings, the board provides opportunity for public participation during meetings via the options below. Live video and audio capabilities are listen-only and are offered on a best effort for the public.

- **Community Meetings: Tuesdays at 8:00 a.m.** (*Teleconference & KTIL-FM at 95.9*)
Dial 971-254-3149, Conference ID: 736 023 979#
- **Board Meetings: Wednesdays at 9:00 a.m.** (*Live Video at tctvonline.com*)
Dial 971-254-3149, Conference ID: 736 023 979#
Agenda items are for discussion or consideration.

MEETING INFORMATION AND RULES

- Matters for discussion and consideration by the board shall be placed on an agenda prepared by the Board Assistant and approved by the board chair. Any commissioner may request items on the agenda.
- Public hearings are formal proceedings publicized in advance through special public notice issued to media and others. Public hearings held by the board are to provide the board an opportunity to hear from the public about a specific topic. Public hearings are therefore different regarding audience participation at regular and workshop meetings.
- Individuals who wish to testify in-person during meetings and hearings shall do so at the table placed in front of the dais. Individuals testifying will, for the record, first identify themselves.
- Commissioners will be addressed by their title followed by their last name.
- Commissioners shall obtain approval from the chair before speaking or asking questions of staff, presenters, and public. As a courtesy, the chair shall allow an opportunity, by the commissioner who has the floor, to ask immediate follow-up questions.
- A majority of the board shall constitute a quorum and be necessary for the transaction of business.
- All board meeting notices are publicized in accordance with public meeting laws.
- All board meetings will commence with the Pledge of Allegiance.
- The chair will utilize the gavel as needed to maintain order, commence and adjourn meetings, and signal approval of motions.
- The board reserves the right to recess to executive session as may be required at any time during noticed public meetings, pursuant to ORS 192.660(1).
- The courthouse is accessible to persons with disabilities. If special accommodations are needed for persons with hearing, visual, or manual impairments who wish to participate in the meeting, please contact (503) 842-3403 at least 24 hours prior to the meeting so that the appropriate communications assistance can be arranged.

TILLAMOOK COUNTY
HUMAN RESOURCES
201 Laurel Avenue
Tillamook, Oregon 97141 (503)
842-3418
TTY/TDD 1(800) 833-3232

To: All County Employees
From: Erin Frost, Human Resources Director
Date: 03/14/2020, updated August 27, 2021

RE: County COVID-19 Response Policy **UPDATED** August 27, 2021

This policy is being updated and revised based on current circumstances and new legislation.

Tillamook County continues to revise its policies pertaining to COVID-19 according to the latest Oregon Health Authority and OR-OSHA guidance and Governor's directives.

Per the Governor's directive and Oregon Health Authority temporary rule, effective August 13, 2021, masks are required in all indoor spaces. Effective August 27, 2021 masks are required in outdoor settings when social distancing cannot be maintained.

Effective August 1, 2021, the County of Tillamook will reinstate the following policies:

County Sick Leave Extension: The County is temporarily allowing County employees the option to go into a negative balance/borrow against unearned sick benefits up to 80 hours for specific circumstances related to COVID-19. These include: if an employee is sick with COVID-19 related symptoms; are caring for an adult elderly family member due to COVID-19 illness and/or a lack of available care givers due to COVID-19; caring for an immediate family member or other person as eligible Oregon Sick Leave, OFLA or FMLA; have been advised by a medical provider to quarantine due to COVID-19; or are caring for children because of school/childcare closures and/or lack of available care takers due to COVID-19, and subsequently, are not reporting to work, then employees are expected to use all accrued leaves consistent with policy and practice. County Sick leave extension allows employees to take up to an additional 80 hours of sick leave after all other accrued leaves have been exhausted; or elect to use leave without pay. Once County sick leave extension hours have been taken, all future sick and vacation accruals will be applied to the extended sick leave balance until the balance is back to zero. Note: employees must be employed with the County for at least 30 days to become eligible for this leave. ***The County Sick Leave Extension provision will continue until September 30, 2021.***

County Paid Leave for COVID-19 related circumstances: In the event the County elects to close a particular department, work location or County function because of circumstances related to COVID-19 response

measures, and the County does not assign employees to work in other work locations or through telework opportunities, employees will receive their regular straight time compensation on a daily basis for regularly scheduled workdays. This provision is for up to 14 calendar days (up to 80 hours of regular pay) or as extended at the discretion of the County. We have chosen 14 days because it matches the current recommended time for quarantines related to this virus. ***The County Paid Leave for COVID-19 related circumstance provision will continue until September 30, 2021.***

To protect the health of County employees, the Human Resources Department may issue additional emergency rules of guidance on the use of sick leave, teleworking, or other policies that shall be in effect only for the duration of the emergency as determined by the County.

Preventative Actions

The County of Tillamook is following all Oregon Health Authority and OR-OSHA guidance pertaining to health and safety measures for our employees, including continued and specific guidance for the Health Department and Community Corrections and masking guidelines may still apply. The County will take proactive steps to protect the workplace in the event of an infectious disease outbreak. It is the goal of the County during any such time period to strive to operate effectively and ensure that all essential services are continuously provided and that employees are safe within the workplace.

The County is committed to providing authoritative information about the nature and spread of infectious diseases, including symptoms and signs to watch for, as well as required steps to be taken in the event of an illness or outbreak.

Preventing the Spread of Infection in the Workplace

The County will ensure a clean workplace, including the regular cleaning of objects and areas that are frequently used, such as bathrooms, break rooms, conference rooms, door handles and railings.

We ask all employees to cooperate in taking steps to reduce the transmission of infectious disease in the workplace. The best strategy remains the most obvious—frequent hand washing with warm, soapy water; covering your mouth whenever you sneeze or cough; and discarding used tissues in wastebaskets. We have installed alcohol-based hand sanitizers throughout the workplace and in common areas.

Staying Home When Ill

Many times, with the best of intentions, employees report to work even though they feel ill. We provide paid sick time and other benefits to compensate employees who are unable to work due to illness. It is critical that employees contact their Manager and do not report to work while they are ill.

Social Distancing and Face Covering Guidelines for Workplace

For information on preventative measures within the workplace and in general, we have shared links below to applicable agencies that provide real time updates on requirements. **Per the Governor's directive and Oregon Health Authority temporary rule, effective August 13, 2021, masks are required in all indoor spaces.**

Travel Guidance

For non-vaccinated individuals returning from domestic travel within the U.S. it is recommended but not required that they self-quarantine for 14 days after arrival and limit their interactions to their immediate household

Travelers arriving via international air travel must follow the Centers for Disease Control and Prevention (CDC)

testing and quarantine guidelines.

Fully vaccinated individuals are not required or recommended to quarantine following domestic travel. Employees should self-monitor for COVID-19 signs and symptoms.

Procedures Upon Return from Travel

Employees who become ill during or upon returning from travel with virus-like symptoms will need to contact the Tillamook County Health Department COVID-19 call line at (503) 842-3940, as well as the HR department, 503.812.7767, for direction as soon as possible.

Employees returning from travel who do not exhibit virus-like symptoms but would like more information on local information and status updates on COVID-19, can call 503.842.3940.

Temporary Telecommuting Arrangements

The County has implemented temporary telecommuting arrangements for employees whose job duties are conducive to working from home but who do not regularly telecommute. However, there are some positions at the County that require the employee to be physically present in the workplace. These employees are defined as essential personnel.

Additional positions may be considered on a case-by-case basis. Please contact your supervisor to make telecommuting requests.

These arrangements are expected to be short term, and the County will continue to monitor guidance from health officials and the need for remote work arrangements. Employees should not assume any specified period of time for telework, and the County may require employees to return to regular, in-office work at any time.

The terms and conditions of this interim policy may be superseded by State and Federal law.

In the event State and/or Federal funds are made available to the County for COVID-19 related responses, including paid leave in excess of accrued leaves, the County retains the full discretion to use allocated funds as determined by the County subject to applicable law.

This policy is presented under extraordinary circumstances as related to the COVID-19 medical emergency and is subject to revision and modification at the sole discretion of the County without further bargaining obligations or grievance.

The Tillamook County Safety Committee lead by County Counsel, Joel Stevens, is an internal resource for employees with questions specific to workplace preventative measures. Joel Stevens can be reached at 503.842.1808.

The County asks that County employees continue to support each other and perform preventative measures to promote a safe and healthy work environment. More information will be forthcoming as events continue to evolve.

September 9, 2021

Tillamook County Board of Commissioners
201 Laurel Avenue
Tillamook, OR 97141

Dear Commissioners:

“Domestic violence is an epidemic affecting individuals in every community, regardless of age, economic status, sexual orientation, gender, race, religion, or nationality.”

National Coalition Against Domestic Violence, downloaded September 3, 2021, from
<https://ncadv.org/blog/posts/quick-guide-what-is-domestic-violence>

Communities across Oregon and the country recognize domestic violence as a nationwide crisis by naming October as Domestic Violence Awareness Month (DVAM). The 2021 theme is #WeAreResilient, celebrating the resilience of survivors, advocates, allies, and community members.

DVAM provides opportunities to:

- Discover what domestic violence looks like;
- Learn what to say to a friend who might be experiencing domestic violence;
- Celebrate the resilience of survivors;
- Support the advocates, programs, and partners who serve survivors;
- Join the movement to end violence.

We would be honored if you would sponsor a proclamation to recognize October 2021 as Tillamook County’s “Domestic Violence Awareness Month.” As you have done for so many years, this proclamation emphasizes your commitment to this important cause and your recognition of the efforts of those who work to end violence.

Thank you for your consideration of this request.

With gratitude,

Beth Hope

Message From the Organizer

Thank you for your interest in attending the 2021 NW Regional ICAC Conference. We are excited to see everyone in October. Due to restricted content, we will be reviewing all registrations and vetting attendees as they are received. ALL attendees will be required to show company identification at on-site registration.

Please visit our website at [2021 NW Regional ICAC Conference](#) for FAQs and the app for logistics and conference information.

Sincerely,
Your Conference Team

About this area

Bellevue

Located in Bellevue, Sonesta Select Seattle Bellevue is in the suburbs. Neptune Theater and El Corazon are cultural highlights, and some of the area's activities can be experienced at Columbia Winery and Chateau Ste. Michelle. Looking to enjoy an event or a game while in town? See what's happening at Husky Stadium or Climate Pledge Arena. With kayaking and sailing nearby, you'll find plenty of adventures in the water.

About this property

Sonesta Select Seattle Bellevue

This smoke-free hotel features a restaurant, an indoor pool, and a fitness center. Free WiFi in public areas and free self parking are also provided. Additionally, a bar/lounge, a coffee shop/café, and a snack bar/deli are onsite. All 152 rooms offer comforts like pillowtop beds and premium bedding, plus free WiFi and TVs with cable channels. Guests will also find coffee makers, free newspapers, and fans. Weekly housekeeping is available.

Cleaning and safety practices

✦ Enhanced cleanliness measures

- Disinfectant is used to clean the property
- High-touch surfaces are cleaned and disinfected
- Sheets and towels are washed at 60°C/140°F or hotter
- Follows standard cleaning and disinfection practices of Commitment to Clean (Marriott)
- Follows industry cleaning and disinfection practices of SafeStay (AHLA - USA)

✦ Social distancing

- Contactless check-out
- Cashless transactions are available for all charges at the property
- Protective shields in place at main contact areas
- Social distancing measures in place

✓ Safety measures

- Personal protective equipment worn by staff
- Temperature checks given to staff
- Masks available
- Masks are required at the property
- Hand sanitizer provided
- Enhanced food service safety measures are in place
- Individually-wrapped food options available for breakfast
- Reservations are required for the use of certain onsite facilities

**OREGON DEPARTMENT
of VETERANS' AFFAIRS**

**Veteran Suicide Awareness
and Prevention Grant
Funds Request - 2021**

Grant funding for veteran suicide awareness and prevention is available to Oregon counties and federally recognized tribes. The funds are meant to help heighten community awareness and publicize mental health options available to veterans and their families in an effort to prevent suicide among Oregon veterans.

If you wish to participate and receive grant funding, please complete this form and submit by September 30, 2021. Funding for each grant is available for up to \$4,000. ODVA asks that you provide a summary of the project/event not later than May 30, 2022.

For questions regarding this grant or the application, please contact ODVA's Grants Coordinator, Jacqueline Kemp at (503) 580-9049 or Jacqueline.Kemp@ODVA.Oregon.gov. Send this form as an attachment in an email to Jacqueline or [use this link](#) to submit.

Name of Contact: Nicholas Torres

County or Tribe: Tillamook

Address: 201 Laurel Ave.

City: Tillamook

Zip Code: 97141

Phone: 503-842-4358

Email: ntorres@co.tillamook.or.us

In the space provided below, please describe your intended use of the funds. Additional space, if needed, is provided on the next page.

Veterans Suicide Awareness and Prevention Plan

Tillamook County Veterans Services has been passing out gun locks at many of our recent outreach events. This is very popular among participants. It helps bring attention to the suicide problem that plague so many of our Veterans and their families.

Veterans Services would like to purchase 8 to 10 gun lockers and put the Veterans Crisis Line on the front of them. That extra time it takes to get into the gun locker could save a Veteran's life.

Our plan is to have a drawing for the gun lockers. We will advertise for the drawing on line and in the local paper. Once the lockers are procured, we will hold the drawing. The requirements to be entered into the drawing is you have to be a Veteran that suffers from PTSD. All entries will remain anonymous.

By signing below, I certify that I am qualified to represent my county or tribe in their request for the available suicide awareness funds. I further acknowledge understanding that the funds must all be used by January 31, 2022.

www.oregon.gov/odva

August 25, 2021

Dear Commissioners and Judges,

The Oregon Department of Veterans' Affairs is pleased to share a funding opportunity with you, for the purposes of raising awareness around veteran suicide. As you are likely aware, suicide rates among Oregon veterans is higher than non-veterans. In an effort to help address this alarming rate, ODVA is inviting the counties and Oregon's federally recognized tribes to again partner with us in efforts to prevent another suicide among veterans.

This last year and a half has added additional stressors to veterans and their families, including isolation from loved ones and financial challenges, which may be combined with underlying mental health and/or substance abuse issues connected to military service. Your ongoing local efforts are important to making a real difference in the lives of veterans and their families. ODVA is providing up to \$4,000 in grant funds, to assist counties and tribes in this important work. These funds are made available from the Oregon Charitable Checkoff program for Veteran Suicide Prevention.

These grant funds can be used to serve the purposes of raising awareness around veteran suicide, to help to de-stigmatize behavioral health challenges when asking for help, and for other local work designed to prevent veteran suicide. In the past, these grants have been used for local awareness campaigns, BBQs and other community gatherings where information is distributed and providers are showcased, for media awareness campaigns, gun safety locks with crisis line messaging, etc. County and Tribal Veteran Service officers have also worked with their county and Indian Health partners to host events, and promote awareness around mental health challenges and provide information on needed supports.

In order to receive grant funding, please complete the attached form, and include a summary of how you intend to utilize the funds, to best suit the needs of your veterans. We do not need budget details, simply a description of your planned event or activities. We would encourage you to consult with your Veteran Service Office to include your local veteran population in planning an event or outreach campaign. This year, we will also ask for a brief report after the event or other awareness campaign.

Please submit the completed request form to ODVA's Grant Coordinator, Jacqueline Kemp **by September 30, 2021**. Her contact information is listed on the request form.

Best regards,

Sheronne Blasi
Director, Statewide Veteran Services

How do you know that the unvaccinated are causing the break through cases? How do you know that people who are unvaccinated are not getting sick from the vaccinated? Antibody Dependent Enhancement which says that a mass vaccination campaign drives the variants. We know that people who have been vaccinated are getting sick. It does not prevent transmission or provide immunity which a normal vaccine does. Why are we still using the PCR test as a diagnostic tool when the CDC/Who have stated it is not accurate. In fact, they have stated that by the end of the year it will be illegal to use.. It can't distinguish between COVID or the flu. How do we know that people that are getting sick/hospitalized and dying didn't die from the flu, or something else?

[NOTICE: This message originated outside of Tillamook County -- DO NOT CLICK on links or open attachments unless you are sure the content is safe.]

Dear County Commissioners:

Here is an excellent discussion with two scientists regarding why you don't do a mass vaccination campaign during a pandemic because it drives the variants. They also explain that it creates more infectious variants, but not more deadly ones-established science in virology. They explain why more children and young people are being affected now. Dr. Malone discusses natural immunity. Both have been involved in making vaccines for a very long time and support vaccines, but have been warning why we need to stop vaccinating anymore people. Dr. Malone was asked to look at the worldwide data and why he became involved. He also had both Moderna vaccines before he looked at the data. Both have been targeted for speaking out. Dr. Malone said the spike proteins in all three of these COVID vaccines are dangerous after examining the data. They are in the trillions. This mRNA technology has never been used before, so again, we DO NOT HAVE MID/LONG/TERM STUDIES FOR EFFICACY AND SAFETY. What we do have are the CDC VAERS stats which again only accounts for less than 1% reported for adverse reactions including DEATH and the numbers are staggering and continue to increase daily.

If you bothered to listen to the video I sent last week on these spike proteins, you would understand why they are likely responsible for the adverse reactions and deaths we are seeing that apparently you are not aware of because it is never discussed in the media, or by our local, state or federal public health agencies. We continue to be told they are 100% safe and effective. There are many other well-respected medical professionals/scientists in their respective fields who have also been speaking out about this for some time now and have been ignored, ridiculed and had their careers destroyed. They take their oath seriously to DO NO HARM.

The data coming out of Israel is alarming. They have one of the highest vaccination rates in the world including boosters, and their infection rate, hospitalizations and deaths continue to escalate. Mary Starrett, the County Commissioner in Yamhill County has filed a FOIA request to obtain the Oregon Health Authority data and the scientific studies they are basing our public health decisions in Oregon. Thus far, OHA has not responded to her requests. Here is an example of an elected official who has not deferred their responsibility to their constituents to public health authorities. In a recent interview, she mentioned that we now have 40% less bed

space. Why is that? I hope to contact her to get more information regarding what she has learned, but I would encourage you to do the same. There are other elected officials at the local/state level who also are asking questions and demanding answers to share with their constituents. I provided a link last week regarding a story about two Oregon state reps. that are suing the OHA for inflating the numbers. This has been a cause for concern from the very beginning of this "pandemic" in Oregon and nationwide, and I will share information regarding this later.

Please get answers to the following questions and provide these answers publicly:

- 1. Why no one is providing the information regarding the CDC VAERS stats to educate the public so they can make more informed decisions?**
 - 2. Why do we have 40% less bed space?**
 - 3. Why aren't people given informed consent regarding ALL the possible adverse reactions=including death that I sent you last week when they get these vaccinations? A long list and we have already seen many of these.**
 - 4. How many healthcare professionals have we already lost in Tillamook County because of these COVID vaccine mandates by Governor Brown? How many natural health practitioners-massage therapists, chiropractors, acupuncturists, and naturopaths who practice more natural healing will lose their livelihoods for choosing not to get these COVID injections?**
 - 5. Please provide the peer reviewed scientific studies that show vaccines are superior to "natural immunity".**
 - 6. How many of the 23 people in our county that we are told died of COVID had autopsies that show the actual cause of death?**
 - 7. Please provide the peer reviewed scientific studies that show that the "unvaccinated" are driving these "breakthrough" cases?**
- 5.
 - 6. Did you know cancer is increasing=even in healthy young people who have been vaccinated? I personally know people who are cancer survivors who are getting cancer again after being vaccinated and been told by friends and relatives about young people who have been diagnosed with cancer that were perfectly healthy before they got vaccinated. That is one of the possible adverse reactions on the list I provided last week from the FDA. No discussion about this in the media or by our public health agencies.**

I will address the PCR test next which has been the basis for our public health response and why it is not a reliable diagnostic tool. That we have **never used cases** in the history of public health. This came last summer when the Infection Fatality Rate and hospitalizations began to plummet. We have always used hospitalizations and Infection Fatality Rate(IFR). .

Do you support forcing people to get these COVID injections when there are major concerns regarding their safety and efficacy including death? This includes being fired=coerced in places of employment, and vaccine passports that many businesses are now requiring for entry into a business in our county. Some clinics are now demanding that people be vaccinated or they can't enter their clinic.

Why aren't you questioning mandating these COVID vaccines for all healthcare professionals, state employees, law enforcement and teachers/staff by Governor Brown, or they will be fired from their positions? Those that you are entrusted to serve in our county. Silence is consent. My body my choice and medical freedom.

Now they are going after our precious children and want to make COVID vaccines mandatory for all school children . What we are doing violates the Nuremberg Code. Please review your history. What I learned recently is not everyone is given the same dose-low dosages, high doses. Some are given a placebo, the ingredients change, not all the ingredients are disclosed on the inserts that doctors, medical professionals get, and instead of waiting for each phase of the trials and collecting the data for safety or efficacy, they are being conducted simultaneously which goes against all normal safety/efficacy protocols. People are not being given informed consent about the possible adverse reactions including death, or what is in these vaccines. I have provided a link below with the ingredients discovered after scientific studies were done and after autopsies. A major cause of concern. Highly toxic ingredients that are carcinogens.

Let's remember the criminal track record of all three of these drug companies. None of them have any liability or accountability for injuries or deaths. There are no independent investigators(without a conflict of interest) looking at the data they have provided. We are supposed to trust what they are telling us. Drug companies are more powerful than the military industrial complex and the oil industry. They have the most powerful lobbyists in DC. They are the primary advertisers for the media which might account for the fact that the media is not doing their job by presenting all sides of these issues and the blatant censorship that happens in countries that have a state sponsored press.

Again, why aren't we focusing on wellness=staying healthy? Zero discussion by our public health agencies since this was first declared a "pandemic". Instead, it's a daily dose of fear which lowers people's immune response and so people aren't empowered to take personal responsibility for their health. There are so many things we can do to strengthen our immune

systems. Why aren't we focusing on the elderly, and the vulnerable which is what we have always done? Why are we going after the children who were not affected by this virus?

Your health workshop was an exercise in fear from start to finish, and what was even more concerning was the fact that your public health experts didn't even know their own data, and never provided any peer reviewed clinical studies to back up what they were saying-masks, social distancing of 6 ft, lockdowns or these vaccines. None of you asked questions that needed to be asked, but just rubber stamped whatever they shared.

Again, if you truly care about public health, then you need to take time to educate yourselves instead of passing the buck. You will be held accountable for your decisions or lack of decisions being made. I would appreciate answers to the questions I have asked on behalf of everyone in our county and that they are made public. Thank you .

Respectfully yours,
Robin Kostrikin, Pacific City

Ingredients in these COVID vaccines from scientific studies and autopsies.

Meeting of the COVID-19 Giants with Geert Vanden Bossche and Robert Malone MD | Vejon Health

Tremendous privilege for me to host the first live discussion between two stalwarts in the COVID-19

pandemic. Both men have taken an ethical stand to focus on science and not be afraid to share their expertise. The world now stands at a crossroad...

Tillamook County Board of Commissioners:

I fully understand that you might not have ready answers for some of my questions from last week. I also understand that you may have to forward some of them to those addressing COVID-19 more directly within our healthcare system. However, in an article titled, "Tillamook County addresses spread of COVID-19" in the August 25th edition of the Tillamook Headlight Herald the commissioners stated "The COVID-19 Delta variant is spreading like wildfire among the unvaccinated in our community. In the past two weeks we have had 361 new positive cases in Tillamook County" [emphasis mine].

The commissioners in the same article stated that, "Eighty-six percent of the newly diagnosed COVID cases are among unvaccinated individuals. Fourteen percent are vaccinated "breakthrough" cases, many of whom caught COVID-19 from unvaccinated individuals. Most individuals who are hospitalized with COVID-19 and those who die from it are unvaccinated" [emphasis mine].

As the commissioners used this term no less than four times in a short news article, my questions to the commissioners are:

1. What is the definition of "unvaccinated" specifically?
2. When can I expect an answer from Marlene Putman to my other questions?

Thank you for your service,
April Bailey

Subject: Continued designation of "COVID" deaths as "unvaccinated"

Board of Tillamook County Commissioners:

Thank you for your continued efforts on the part of our county.

I have a lot of concern about the potentially divisive and ambiguous language being used by county health officials, the Emergency Manager, and the Tillamook County Commissioners concerning COVID deaths. Please address the following questions at the Public Board Meeting.

1. Define "unvaccinated" specifically.
(No COVID vaccine, a COVID vaccine, etc.)

2. Do undocumented persons count as "unvaccinated"?
3. Why is this the only qualifier of death being noted by the commissioners? (No age, comorbidities, etc.) Have autopsies confirmed these deaths were caused by COVID-19?
5. Why do the commissioners think more people have died in the last few months supposedly from "COVID" than prior to the vaccine roll out? If they believe "Delta" variant is more deadly, is that being documented in other rural counties across the country?
6. Were these patients given monoclonal antibodies, Ivermectin, high doses of Vitamins C and D? Did they get put on ventilators? Did they receive the drug responsible for many deaths in NYC, Remdesvir?
7. Has Tillamook had any vaccine related deaths or injuries? How many? When did they occur?

3rd doses/boosters. Since this virus has already mutated, how can a vaccine that was intended for the original strain be effective for a new mutated virus?

Thank you Isabel.

Here is my comment / question.

We are approaching almost 2yrs since the graffiti has been at the entrance if Pacific City at Hwy 101.

I am aware of everyone being short staffed and all the covid factors but.....

Is there a plan to remove or paint over the grafitti?

Thank you.

Good Morning Mr. Newman,

Thank you for your email. You may submit your public comments regarding the graffiti to this email address. Your comments will be provided to the commissioners.

Please let me know if I can assist any further.

Sincerely

Isabel

I would like to make a public comment at the County Commissioners meeting on September 29th. It is in regard to the Graffiti on the road at the entrance to Pacific City at Hwy 101.

Thank you
